Save Progress

It is highly recommended that you click **Save Progress** every 10 to 15 minutes when you are filling out a form. The form will also automatically save when you move from one page to the next.

When you are logged in, there is a limit to the time of your 'session' length. For example, if you leave your computer idle for a length of time without saving your work, and then return, the session length may have ended (or been timed-out).

Logout timer: 20 Minutes

What activities will reset the logout timer after you are logged in?

- Navigating between pages of the form
- Saving

What happens if the timer expires (reaches 0)?

You will be shown a login option again. If you successfully enter your login details you will be returned to the page you were viewing.

Please note: If you were filling out a form, we attempt to retain any changes you have made, so you can continue working on the form after you log back in. To avoid losing your work we recommend that you press save regularly.
